Our Risk Management Objectives are to:

- Develop a common understanding of risk and risk appetite across the company so we can manage risk cost-effectively, competitively and consistently;
- Build safeguards to mitigate against material losses to company value;
- Build and improve capabilities to respond to low probability - but critical or catastrophic risks – so that business continuity is ensured;
- Achieve cost savings through continuous improvement and management of internal resources; and
- Allocate shareholder's equity and capital efficiently to meet the company's growth plans.

All staff have a role in the management of risk within their area of influence. In addition:

- Our Management Team and Senior Managers will coordinate, facilitate and periodically review T3PM Group's Risk Management Policy and Management System.
